Thriving, strong, satisfied & sustainable community

Our Mission

Bridging the gap by re-directing the abundance of food in our community to where it is needed

Our Values

Effective

Responsive

Respectful

Generous

Inclusive

Chairperson's Report

In the past year, Satisfy has aimed to maintain the focus of who we are as an organisation and to make the most of collaborative opportunities. We believed that this would help us to build on the successes of the year before while keeping us grounded and focused on our purpose to reduce food waste and reduce food poverty. I believe we achieved this in spades and as a result it has been another extraordinary year for Satisfy!

It is our second year in our premises at 122 Williams Street, Kaiapoi. The warehouse and sorting space have enabled us to continue to grow the amount of food we can rescue and distribute. This past financial year we have distributed a massive 249 tonnes of food which is 45% more food than the year before. Our warehouse is consistently being filled with pallets of food from New Zealand Food Network (NZFN) and bulk food purchases through Food Secure North Canterbury (FSNC). The Oxford & District Lions Club is continuing to provide us with produce that they have grown specifically for Satisfy; potatoes, courgettes, pumpkins and the promise of kumara over the winter months. This has added to our daily donations of food from our loyal supermarkets.

The extra space and our wonderful group of staff and volunteers have meant that we have coped incredibly well through the lockdowns and changes to the traffic light settings. We have been able to provide uninterrupted service to our food donors and recipient organisations. The food we have distributed has been extremely important to so many people over the difficult COVID months.

The Ministry of Social Development (MSD) has continued to recognise the importance of food rescue in the current COVID landscape and as a result we received several additional unsolicited MSD grants. This extra funding will allow us to set up a base in the Hurunui, on which we are currently working hard. In addition to the much-appreciated grants from The Rata Foundation, Lotteries Communities Fund and COGS, we received grants from James Maxwell Heron Trust, through Perpetual Guardian, and the Canterbury Waste Joint Committee. We also received generous donations resulting from the successful collaboration with Life Health Foods (Naked Locals soup). The soup collaboration is continuing this year so make sure you look out for the Satisfy branded soup in the supermarket!

We had a couple of big wins this past year that deserved much celebration. We were very proud to win the Community Enterprise Award at the North Canterbury Business Awards. Unfortunately, the awards dinner was cancelled but we made sure we celebrated anyway! After much sweat and tears we achieved Level 4 MSD Accreditation in October last year which allows us to continue to receive MSD funding. It was a huge task, and I am very grateful for all the hard work put in by the staff and trustees to achieve this.

Our plans to be part of the Kaiapoi community hub have continued to progress. We now have a set of exciting concept plans for our proposed new premises and are on the cusp of finalising the set-up of the trust for the hub. All of this helps to make it feel a little more real! We will continue to work closely with Waimakariri District Council and the other potential hub users over the coming months to finalise plans, gain resource consent and draw up sponsorship/funding plans.

As always, a huge thank you to our amazing team of staff, volunteers and trustees. Satisfy exists because of your passion and hard work, I am so grateful for you all!

Phillipa Hunt, Chairperson and Founder

Manager's Report

This past year provided Satisfy with many challenges, as it did for the whole of New Zealand. With challenges often comes change, and we navigated many! This included ongoing changes to Government level restrictions which then migrated to adopting the new traffic light system. We had to be flexible enough to make the necessary changes to operations to allow us to operate without much disruption throughout this time. As always, our amazing team of volunteers and staff never wavered: masks, gloves, extra sanitisation, contactless collections, scanning or signing in - nothing was ever too much trouble. We were very lucky too, managing to organise a quiz night in July which was enjoyed by many of our key contacts, and our annual midwinter volunteer dinner on 17th August, the very evening it was announced that we would be entering a countrywide Level 4 lockdown!

In April we said goodbye to our wonderful driver Helen Kelly who finished up after an amazing 16 months of working hard to support our food collections. Brian Kelsall was welcomed into the fold on a permanent basis from his relief driver position, and we employed Mari Strydom, our lovely Tuesday volunteer to complete the team.

Supermarket collections continued and we added the recently opened New World in Ravenswood to our daily run, and started receiving food from Fresh Choice Oxford, increasing our donor supermarket numbers to a healthy eight. This kept the Satisfy van quite busy, until an unfortunate minor accident took it off the road and sadly left it uneconomical to repair. Our very generous friends at the Hope Community Trust came to our rescue and allowed us to use their trusty van for three months whilst we searched, then waited, for our new van to arrive. It wouldn't have been possible to purchase this new van without generous financial donations to Satisfy from Countdown and Life Health Foods, and for these we are extremely grateful!

As we got busier and food donation volumes increased, we realised our little chiller that had served us so well for over five years just couldn't cope with the sheer volume of chilled food we were receiving. The Canterbury Joint Waste Committee graciously funded Satisfy enough to rent a huge container chiller which has proved to be invaluable. This meant we could safely store the sizeable palletised deliveries we regularly received as one of New Zealand Food Network's (NZFN) Food Hubs. This also meant that when the MSD contacted us late in 2021 requesting support for the Waimakariri and Hurunui food banks, we were able to take on the increased workload of helping store and supply food to self isolating households.

Aotearoa Food Rescue Alliance (AFRA) supported all of their member organisations including Satisfy incredibly well throughout the year. There were regular Zui's (online zoom meetings) as we navigated Covid crisis challenges, sharing information and best practice across the membership. Satisfy was thrilled to be part of the exciting data platform pilot and became one of the first members of the Alliance to fully migrate to the new Airtable system. Our team really did hit the ground running with the new system and we are pleased that the migration has been seamless for all involved.

With so much change and progress across one year, I am truly excited to see what the next twelve months will bring. One thing is certain, this is a team effort and every person connected to Satisfy can be proud of the results contained within this report. Without our amazing team doing the day-to-day mahi, none of this would have been possible.

Stef Van Meer, Manager

Stage

1 tahi:

> Food Donor:

Food retailer, wholesaler or grower has unsaleable but edible food to donate.

Stage

2 rua:

> Satisfy Collects:

We collect food from donors every weekday with help from our volunteers and bring it back to our Kaiapoi base.

Stage

3 toru:

> Food Sorted:

Our wonderful team of volunteers sort the food to suit the needs of our recipient organisations.

Stage

4 whā:

> Recipient Organisations:

Food is collected by local organisations doing vital work within our communities.

Stage

5 rima:

> Food Distributed:

These organisations give out our rescued food to kids, families and people who need it most.
